Spirits**

*A Clear
Advantage*

Who are we?

Glacial Grain Spirits (GGS) is one of the only remaining farmer-owned manufacturers of beverage grade alcohol. Our ultra low impurity level base makes our product perfect for further refining to your desired flavor finish!

GGS alcohols are both kosher and organic certified. From local farms to the GGS production line, the organic and kosher ethanol follows all the regulations and requirements to maintain its superior quality. Because of these rigorous standards, GGS is able to market to some of the highest-end cosmetic companies and beverage companies.

Our modern manufacturing facility is staffed with an experienced team of operating professionals with many years of experience. Our comprehensive quality assurance programs assure consistent adherence to quality standards for every batch of alcohol produced.
